Results are based on real time. Gun time applies only to elite athletes (bib numbers 1-130 and F1-F25) and for prize positions (Italian men's and women's overall podium).

The timing chip must not be removed from the bib.

Official timing provider: Evodata

GetPica photos can be purchased via the **View Your Photos section**.

Results and finisher certificates can be downloaded free of charge at **https://www.endu.net/it/events/rome-half-marathon**.

Live results will be available in real time.

Vests, jackets, or magnets instead of safety pins? You can use them, but make sure your race bib remains clearly visible and keep magnets away from the timing chip, as they may interfere with race photos and accurate time recording.

TIME LIMITS & CUT-OFF POINTS
